**I. Review of the June 10, 2025 Meeting Minutes**

Minutes from June 10, 2025 were presented to the committee in advance for review

Motion to approved as written (Kajon/Conn), none opposed, Matison and Peyton abstained

**II. Old Business**

None at this time.

**III. New Business**

**FY25-053 Amendment A-5 Inhalation Dose Range Finding Study in Rat for LNA4** – A study director gave a brief explanation of the protocol amendment; This amendment requested an increase in the number of animals to accommodate testing another derivative of the Sponsor's test article which is a locked nucleic acid (LNA) which has been designated as LNA14. A scrambled LNA described in a previous amendment (amendment 3) will be used as a control. The study director could not be present but discussion ensued as to the target(s) of the LNAs. The committee agreed to approve the protocol conditionally upon the condition that the LNA targets be defined. All targets of recombinant nucleic acid are required to be disclosed. Motion to approved pending LNA targets: (Revelli/Sharpe) no abstention no opposed.
